

REVERSE FAMILY

SONGS ABOUT LIFE MID CRISIS - RF050

Featuring a raft of artists and misfits from Hertfordshire. Reverse Family is a fluid collaboration lead by Dermot Illogical.

The songs on this album were originally written and recorded in a cupboard under the stairs in St.Albans - between 2006 and 2010, - channelling such diverse influences as Jilted John., Pete Shelley and Vivien Goldman through to areas of Captain Beefheart. It wasn't until 2013 that Dermot finally realised his dream of completing this, his original set of skew-whiff observations, bizarre characters, dreams and mutant 'bitter-sweet' diary entries.

Mixed and mastered by the Legendary Steve Honest at Hackney Road Studios in London, this vinyl only and limited to 200 copies 14 track set, will be released through the Perfect Pop Co-Op on April 15th 2017.
